Comments on Landry Signé:

He is a true leader. I am honored to have him as my teacher at the training at Thunderbird School of Global management. I am impressed on how he can deliver the material interactively. Thank you so much Prof Signé. Hopefully, I can learn more about management and leadership from you in the future.

Very attractive, knowledgeable and responsive

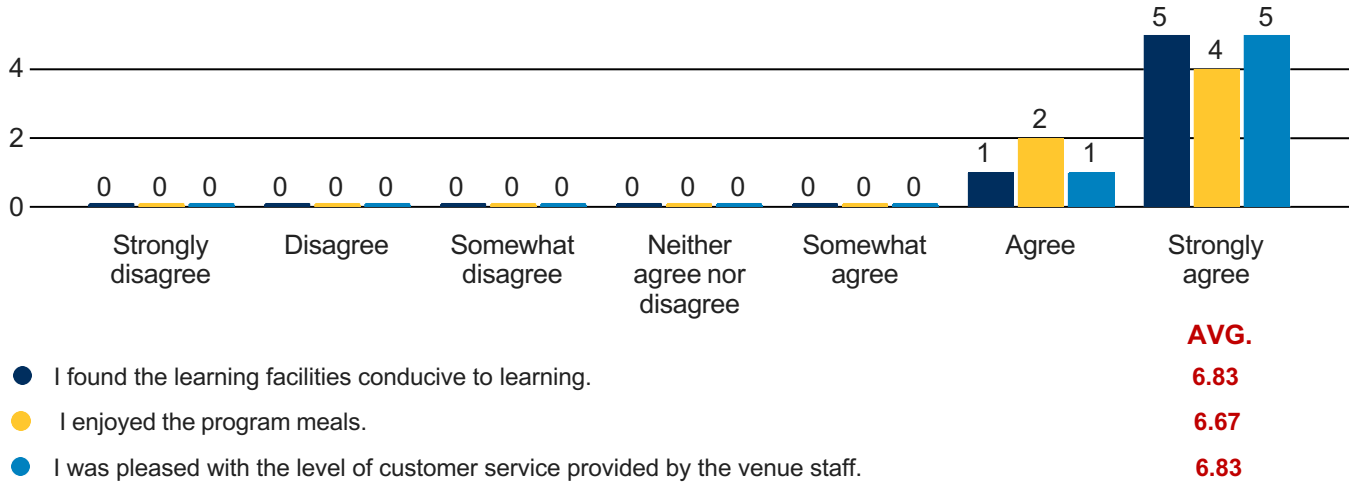

Have the competence to foster and motivate participants

Wonderful trainer

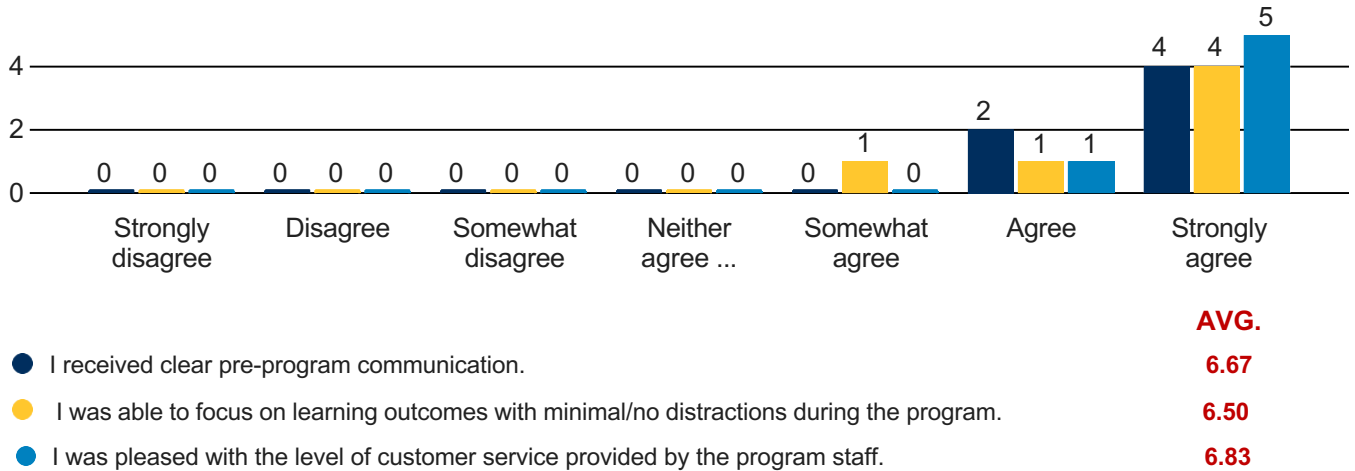

I can describe my feelings for the valuable learning and experience that I have gained from Prof Landry and the team with one word: Wonderful as he has often said

What can we do to improve your experience with us?

I think overall, the program runs smoothly. I just wondering whether the material can be delivered in three or four days. We need more time to adapt to the material given.

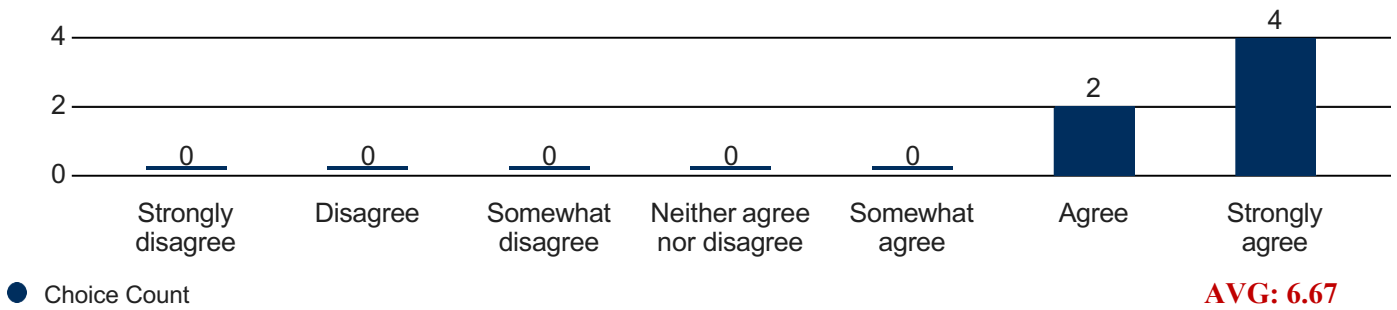

Very good

Continue to be willing to assist us in realizing our dreams of becoming a university that can be known to the world

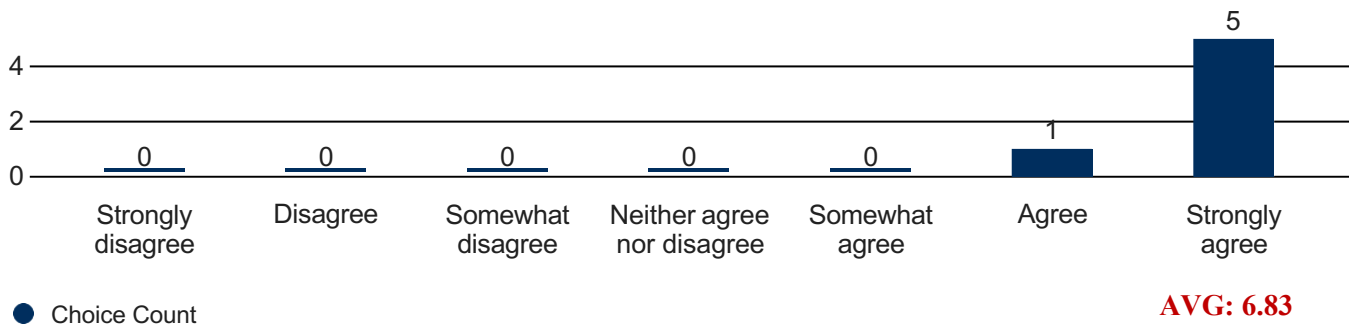

The value I gained was worth the time I committed to the program.

I would recommend this program to others.

I would recommend Thunderbird Executive Education to others.

Additional comments or insights about your experiences in this program are welcome and appreciated:

It is a great learning experience from Thunderbird School of Global Management-Arizona State University

It was complete.

Very interesting method used during training.

We still need assistance in implementing the knowledge gained during training
